JEFFREY FABELLA

IT Project Manager & ReactJS Developer

La Union, Philippines | +63 962 524 0667 | jeffrey.t.fabella@gmail.com
[Developer Portfolio](#) | [GitHub](#)

EXECUTIVE SUMMARY

Results-driven IT Project Manager and Web Developer with over 5 years of experience in delivering full-cycle IT solutions and scalable web applications. Proven expertise in document management systems, e-signature platforms, and cloud-based architecture. Skilled in bridging technical development with strategic project oversight, leading cross-functional teams, and deploying full-stack solutions using ReactJS, Next JS, Node.js, and MongoDB.

Highly experienced in agile methodologies, database optimization (MariaDB, Firebase), and cloud infrastructure (GCP). Known for improving workflows, fostering collaboration with stakeholders, and delivering high-performance, user-centric applications across the fintech, gaming, and e-commerce sectors.

PROFESSIONAL EXPERIENCE

GLOBAL APPLICATION PRODUCERS – *Claremont, Australia*

IT Project Manager / Database Admin / QA Specialist

February 2021 – Present

- Led the end-to-end development of Pachi+ and Pachi Exchange, overseeing project planning, backend architecture, QA, and deployment across cross-functional teams.
- Enhanced Gameworkz Fortune 8 with new features that boosted engagement and reduced bug reports by over 60%.
- Optimized database performance with MariaDB and Navicat, improving query speed, system uptime, and overall workflow efficiency.

UNAWA Inc. – *Makati City, Metro Manila*

IT Project Manager / Business Analyst

April 2022 – September 2024

- Directed enterprise-level projects including the Supreme Court Document Management System, driving digital transformation in high-security, high-volume environments.
- Delivered cloud-native platforms such as SignSecure, ForMA, and UCheck using MongoDB and GCP, ensuring scalability, security, and performance.
- Strengthened product quality through effective test strategies and client collaboration, reducing post-release bugs by over 70% and improving delivery timelines.

TECHSPHERE / RANGERTECH – *Pasig City, Metro Manila*

IT Project Coordinator / Web Application Developer

February 2020 – March 2021

- Developed responsive, accessible web apps using React, enhancing user experience and engagement for platforms like RACEHUB PH and ITG's chatbot.
- Led coordination of deliverables, timelines, and cross-functional communication to align development with client expectations.
- Launched a custom CRM system for Microtel by Wyndham, streamlining customer management and automating lead tracking.

ACCENTURE PHILIPPINES – *Quezon City, Metro Manila*

Data Analyst

February 2018 – December 2019

- Evaluated and processed high volumes of user content in compliance with internal guidelines, ensuring data integrity and platform safety.
- Improved review accuracy and workflow efficiency by 20% through team collaboration.
- Recommended process improvements adopted across multiple project teams.

TRANSCOM WORLDWIDE PHILIPPINES – *Mandaluyong City, Metro Manila*

IT Staff – Internship

November 2016 – February 2017

- Installed and configured hardware and network systems, supporting a stable IT environment for daily operations.
- Resolved technical support issues quickly, minimizing disruptions to employee productivity.
- Provided hands-on assistance in maintaining infrastructure systems and user access management.
